

# GIS Healthcare

Provide valuable assistance for Medicare-eligible employees

GIS Healthcare is a national employee benefits general agency specializing in providing Medicare education and enrollment services to individuals transitioning from their employer's benefit plans. Whether you have employees who are retiring or in a situation where Medicare needs to become their primary health insurance, GIS Healthcare is ready to help.

**Partnering with GIS Healthcare provides:**

## Help for HR and Administrators

- **Go-to Medicare resource:** When employees reach out to you with Medicare questions, you can simply refer them to the GIS Healthcare team, and rest assured they will receive the same high level of service they expect from you and your team.
- **Education for HR:** The GIS Healthcare team helps to educate and train HR staff on the complexities of Medicare and when it will, and won't, make sense for employees.
- **Enrollment support:** You can confidently provide employees with credible education and enrollment help from industry experts.

## Help for Employees

- **Proactive outreach:** GIS Healthcare can help to identify Medicare-eligible employees and provide proactive outreach to educate them about their options and enroll them in Medicare, when it makes sense.
- **Education:** Comparing plans and simply navigating the enrollment process can be complicated and intimidating. The experts at GIS Healthcare can help to educate employees about their options and enroll them in their new plans in real-time.

**Our team at GIS Healthcare is here to help.
